

# Bio Sketch for Raaz Sainudiin

## What area of maths do you work in?

Computational, mathematical and statistical genetics.

## Tell us more...

I am interested in how we are genetically inter-related in space-time.

## What areas of maths do you follow from a purely interest standpoint?

Anything I have the energy and time to understand, really.

## What were your best and worst subjects at school?

Best at biology and geometry and worst at physics and second languages

## When you decided you wanted to be a mathematician and why

When my poems were misunderstood I decided to communicate in ways that cannot be misunderstood.

## What training (degrees and subjects) you've done

Undergraduate: Double major in Biology and Mathematics.

## What do you do for fun?

Field taxonomy of plants and fungi.
